# THE POULTRY HOUSEKEEPER

## EFFICIENT LITTER MANAGEMENT FOR LESS \$

More and more poultry growers are discovering how easy and inexpensive it is to maintain a broiler or turkey house with one machine that practically anyone can operate. The Poultry Housekeeper removes feathers and caked or wet litter in less time than you ever dreamed possible.

Remaining litter is quickly aerated to reduce ammonia fumes and drying time.

Litter removed from the house can either be stockpiled or spread, while new litter may be loaded and distributed inside the house. The simple one-man operation of the Housekeeper makes it the cost-effective solution to litter management for today's poultry industry.

With the rugged all-new Poultry Housekeeper from Lewis Brothers Mfg, maintaining a broiler or turkey house has never been easier...or more efficient!

The Poultry Housekeeper is designed for growers who demand quality equipment at an affordable price

## WHY MORE POULTRY GROWERS ARE CHOOSING THE POULTRY HOUSEKEEPER

- All Hydraulic Drives (No Belts Except Spinner Assembly)
- Hydraulic Controlled Tailgate For Faster Dumping
- Operates Closer To Walls
- More Uniform Spreading
- Wider Pickup Head
- Electric Control Valve (Optional)
- Converts Quickly From Stock Piling To Spreading With Optional Spreading Attachment.
- Hydraulic Tongue Assembly (Standard)
- Hydraulic Spreader Assembly (Optional)
- Tandem Axle (Optional)
- Proven, Patented Separating Mechanism
- Can Be Converted To Completely Clean Out Your Poultry House With Optional Solid Bar Kit
